Thanks Joyel!

I forwarded this email to Erica ( Branch Manager ) so that she can be in the loop also.

Hi Doug,

We are running for metals with 200.7 and 200.8. I'm not a water quality person so I hope these test numbers mean something to you, if not please just ping me back.

Hi Doug,

Thanks for the heads up. Do you need info on what to sample for? I can email you what parameters we are collecting.

I'm still in Denver so far, but set to head to Durango Monday to relieve staff onsite.
